

## CITY OF TEMECULA EMERGENCY PREPAREDNESS

### SPECIAL EDITION NEWSLETTER **Your Guide to Emergency Preparedness**

For 2018, the City's theme is "TemeculaSAFE". We'd like to take this opportunity to remind all residents to be **SAFE** and **PREPARED** in the event of an emergency or natural disaster. This publication includes helpful emergency preparedness information for residents of the City of Temecula including:

- Wildfire prevention guidelines for your home
  - 3-minute and 3-day emergency supply lists
  - City communications during an emergency event
  - Links for wildfire, earthquake and freeway closure updates
  - List of local hospitals
  - Treating potentially contaminated water
  - Health and safety tips before and during an emergency
- ...and more*

This special edition newsletter is produced by the City of Temecula, to provide you with important emergency preparedness information and safety tips in the event of an emergency. **SAVE THIS** with your emergency supplies.

# Wildfire

**TIPS TO PROTECT YOUR HOME** California has witnessed devastating wildfires that have destroyed homes and neighborhoods. Here are some ways to prepare.

## CREATE A 100FT DEFENSIBLE SPACE ZONE

For large lot landowners, create 100 feet of a defensible space zone surrounding your structure(s). Remove dry grass, brush, and other flammable materials around your home. Replace with well-maintained and watered, drought-tolerant, fire-resistive plants within the first 30 feet of the structure. The next 70 feet of vegetation should be thinned so that no more than 50% of this open space is covered by plants more than 4 inches in height.

**REMOVE DEAD VEGETATION** All dead, dying or diseased trees, shrubs and vegetation should be removed within 100 feet from a structure. Remove dead palm fronds, especially within 100 feet of a structure, roadway or driveway. Properly dispose of yard clippings; plant waste, debris and other vegetation. Illegal dumping is a fire hazard.

**ROOF, RAIN GUTTERS & DECKS** Keep your rain gutters, roof and outdoor patio/deck areas clean of combustible debris such as leaves and pine needles.

**TREE BRANCHES & COMBUSTIBLE LANDSCAPE MATERIAL** Cut tree branches at least 10 feet from rooftops and fireplace chimneys and keep combustible mulch and wood chips 12 inches away from exterior walls.

**CHIMNEY** Cover chimney outlets with a metal screen having openings between 3/8 inches and 1/2 inches.

**PROPANE TANKS** Propane tanks need 10 feet of clearance from combustible materials and vegetation.

**HOSES & FIRE EXTINGUISHERS** Have multiple hoses that are long enough to reach all areas of your home and property. Keep a fire extinguisher in your garage.

**HOME ADDRESS NUMBERS** must be in contrasting colors (minimum 4-inch size) from background, and readable from street or access road.

**Get the  
CAL FIRE  
APP**

The CAL FIRE "Ready for Wildfire" app offers customized wildfire alerts and updates about any wildfires near you, such as size and containment percentage. Download the app at <http://www.ready-forwildfire.org/Ready-for-Wildfire-App>

**If you smell or see smoke, get online information at:**

<http://www.rvcfire.org/incidentInformation/IncidentFactSheets>

[https://twitter.com/CAL\\_FIRE](https://twitter.com/CAL_FIRE)

<https://twitter.com/CALFIRERRR>

<https://twitter.com/CALFIRESANDIEGO>

**If a wildfire poses a threat to the City see page 4 for City of Temecula communications.**

For more info., visit: [www.FIRE.CA.GOV](http://www.FIRE.CA.GOV)

# Earthquake

**WHAT TO DO...** For additional phone and website links, see pages 4 & 5

**OUTSIDE:** Move away from buildings, street lights, utility wires and overpasses.

**INSIDE:** Get under a sturdy table and hold onto it. If that's not possible, crouch in a strongly supported doorway or inside corner, and protect your head. Stay clear of windows.

# Your Emergency Kit

## 3-Minute Emergency Kit

Natural or man-made disaster events can occur at any time. In certain emergencies, the first three minutes may be critical if you need to evacuate your home quickly (mudslide, structural instability, fire, etc.) or if you become trapped. We encourage every individual to store a "three-minute" bag of supplies near each bed. Include sturdy **shoes**, comfortable **clothes**, full set of extra **keys**, leather work **gloves**, **whistle** (can be used to attract rescuers to your location), a **flashlight**, and other items you feel are important.

## 3-Day Emergency Kit

The following is a list of basic items that every emergency supply kit should include. However, consider the unique needs of you and your family, and add other items you may require. Keep emergency kits at home, and consider creating a portable kit for your vehicle and workplace. More information: [www.ready.gov](http://www.ready.gov).

### Basic Disaster Supplies for your 3-Day Kit

To assemble your 3-day kit, store items in airtight plastic bags and put your entire disaster supplies kit in one or two easy-to-carry containers such as plastic bins or a duffel bag.

- **Water:** 1 gallon of water per person per day for at least 3 days, for drinking and sanitation (2-week supply if possible)
- **Food:** at least 3-day supply of non-perishable food
- Battery-powered or hand crank **radio** and a NOAA Weather Radio with tone alert and extra batteries
- **Flashlight** and extra **batteries**
- **First aid kit** and first aid book
- **Whistle** to signal for help
- Dust **mask** to help filter contaminated air, and **plastic sheeting** and **duct tape** to shelter-in-place
- Moist towelettes, toilet paper, garbage bags and plastic ties for **personal sanitation**
- **Wrench** or **pliers** to turn off utilities
- Manual **can opener** for food
- Local **maps**
- Cell **phone** with **chargers** and backup batteries

### Consider Additional Emergency Supplies that may be Needed for your Family

- Prescription **medications** and non-prescription medications such as pain relievers, anti-diarrhea medication, antacids or laxatives
- **Glasses**, **contact lenses** and contact **lense solution**
- **Infant formula**, bottles, diapers, wipes, diaper rash cream
- Personal **toiletries**: soap, toothbrush and toothpaste
- **Pet food**, medicine, and extra water for your pet
- **Cash** or traveler's checks
- Important family **documents** such as copies of insurance policies, identification and bank account records saved electronically or in a waterproof, portable container
- **Sleeping bag** or warm blanket for each person
- Complete change of **clothing** appropriate for your climate and sturdy shoes
- Household chlorine **bleach** and medicine **dropper** to disinfect water
- **Coffee filters**, **paper towels**, and clean **cloth** to filter water.
- **Fire extinguisher**
- **Matches** in a waterproof container
- Feminine supplies and personal hygiene items
- **Messkits**, paper cups, plates, paper towels and plastic utensils
- **Paper** and **pens** (check ink)
- Books, games, puzzles or other **activities** for children

### Maintaining your kit so it's ready when you need it

- Keep canned food in a cool, dry place
- Store boxed food in tightly closed plastic or metal containers (rotate food and keep track of expiration dates). Replace expired items
- Re-think your needs every year and update your kit as your family's needs change

# Emergency Contact Information

## CITY OF TEMECULA EMERGENCY COMMUNICATIONS

**IN THE EVENT OF A CITYWIDE EMERGENCY,** the City of Temecula is committed to keeping our community safe. We regularly participate in mock emergency training to test our emergency plans. The City will activate its Emergency Operations Center upon a large-scale emergency, disaster or other significant event.

**CHECK THE CITY WEBSITE & FACEBOOK FIRST**  
The City posts information on our Website and Facebook first, and if an incident escalates to a large-scale citywide emergency event, then we will use the other forms of communication listed here.

### CITY WEBSITE

The City's website will provide emergency information on the home page <https://temeculaca.gov>

### CITY FACEBOOK PAGE

Emergency incident information will be posted to the City's primary social media outlet, Facebook. <https://www.facebook.com/cityoftemecula>

### CITY RECORDED MESSAGE

During a long-term emergency event, call 951-506-5111 for prerecorded information such as road closures, evacuations and shelter locations

### CITY REVERSE 911 PHONE NOTIFICATIONS

**The City of Temecula Emergency Notification System is used to rapidly send telephone notifications to all residents and businesses in an affected area in the event of an emergency.** The system will automatically call listed and unlisted telephone numbers (including TTY/TDD) within the area affected by the emergency and deliver a recorded message. If phone lines are busy, the system will attempt to redial those telephone numbers to make contact. The City of Temecula assumes no responsibility if an emergency message cannot be delivered or is not received.

**Cellular or Voice over IP (VoIP) phone numbers are not automatically in the system database.** If you would like to be contacted on your cell or VoIP phone, you must register these phone numbers. Please note that the service being offered is for City of Temecula residences and businesses only. Add your cellular or VoIP phone numbers to our Emergency Notification database at <https://temeculaca.gov/732/Reverse-911-Registration>

### TEMECULA OUTREACH EMAIL NOTIFICATIONS

The City of Temecula frequently sends out information to the public through our Temecula Outreach Email "eSubscriptions." This is a subscription that users can opt out of anytime. In the event of an emergency, the City may send emergency information through our email system to those signed up for the "General Interest" category. To subscribe for Temecula Outreach Email Notifications, visit <https://temeculaca.gov/170/Temecula-Alert>

### CITY AM 1610 RADIO STATION

The City of Temecula has it's own AM radio station to broadcast information during a citywide emergency. Tune in to AM 1610 during a large-scale emergency event.

### CITY TV CHANNEL 3

The City of Temecula operates Channel 3 on Time Warner and Verizon FiOS cable providers. Channel 3 routinely displays video and slideshow content that informs the community about events and programs here in Temecula. In the event of a large-scale emergency, regular scheduled programming will be interrupted with updates about the emergency that can include statements from City Council, Fire, Police, and City staff. Channel 3 is also live-streamed on the City website: <https://temeculaca.gov/770/Temecula-TV-Channel-3>

## ADDITIONAL EMERGENCY COMMUNICATIONS

### EARTHQUAKE UPDATES

<https://earthquake.usgs.gov/>

### WILD FIRE UPDATES (Near Temecula)

**Riverside County:**  
<http://www.rvcfire.org/incidentInformation/Pages/Live-Incident-Feed.aspx>  
<https://twitter.com/CALFIRERRU>

**San Diego County:**  
<https://twitter.com/CALFIRESANDIEGO>

### INTERSTATE 15 INCIDENTS/CLOSURES

**California Highway Patrol:**  
<https://cad.chp.ca.gov>  
**Caltrans: 1-800-427-7623**  
<http://www.dot.ca.gov/cgi-bin/roads.cgi>

### TEMECULA'S EMERGENCY DISPATCH

**Dial 951-776-1078.** For example; while on vacation in New York, your security camera on your smart phone shows a fire has started in your backyard, dial the direct number to Temecula's Emergency Dispatch. If you dial 9-1-1 while in New York, you will get New York's dispatch who will need to transfer you to Temecula dispatch.

### TEMECULA POLICE & FIRE

Call 9-1-1 for Emergencies  
Temecula Police Department  
(Non-Emergency): 951-696-3000  
Temecula Fire Department  
(Fire Prevention-General Info): 951-694-6405

### LOCAL UTILITY COMPANIES

SoCalGas: 1-800-487-2200  
Southern California Edison: 1-800-611-1911  
Rancho California Water District: 951-296-6900  
Eastern Municipal Water District: 951-928-3777  
CR&R (Waste and Recycling): 800-755-8112

Tri-City Medical Center	4002 Vista Way, Oceanside CA 92056	(760) 724-8411

# Emergency Water Supply

## HOW TO STORE AN EMERGENCY WATER SUPPLY

### Bottled Water

Bottled water purchased at grocery stores may be stored for several years. The bottles should be stored in a cool dark place and should not be exposed to sunlight or fumes of petroleum products and pesticides/herbicides. They should be checked periodically to ensure that the plastic has not cracked or developed leaks. If the containers have cracks or leaks, replace them.

### Tap Water From Rancho California Water District

**You must sterilize the containers for tap water storage to be stored. Repeat steps below to change the water every six months.**

Storing tap water for emergency use is more complicated. The storage containers must be sterilized before it is stored. The water should be changed every six months. Containers made of heavy opaque plastic with screw-on caps are the best to use. Plastic milk and orange juice containers are very thin and tend to crack and leak as they get old. Snap-on lids do not seal as well as screw-on caps.

### Sterilizing Water Containers

1. Wash the container with soapy water.
2. Rinse thoroughly.
3. Fill the container half full with water and add one (1) cup of chlorine bleach for each gallon the container holds. **WARNING: Do not use scented laundry bleach, powdered bleach or swimming pool chlorine - these contain additional chemicals that are poisonous (this means do not use products such as High Efficiency Bleach, Splash-less Bleach, Clorox® Ultimate Care Bleach or Clorox® Bleach Pen Gel).** Finish filling the container with water (all the way to the top). Put the cap on and lay the bottle on its side for about 3 minutes. This allows
4. Shake the container well and let sit for 30 seconds.
5. Pour the bleach-water into the next container to be sterilized. The same disinfecting bleach water can be used for several containers - simply "top-off" the new container with water as needed. **REMEMBER: this is not drinking water - pour down drain when finished.**
6. Pour down the drain when finished.
7. Rinse the container thoroughly with clean water.

you to check if the container leaks while the bleach-water disinfects the cap. If the container leaks, do not use it.

## Treating Potentially Contaminated Water In An Emergency

### Boiling Water

During an emergency, such as a major earthquake, Rancho California Water District may issue a "boil water notice" until they can verify that the water is not contaminated and is safe to drink. During a "boil water notice," any water used for drinking or food preparation should be boiled at a full rolling boil for at least one full minute. A full rolling boil is a vigorous boil that can not be stopped by stirring the water. If the water is dirty looking and/or has particulate matter in it, filter the water through a coffee filter, paper towels, or clean cloth before boiling.

**NOTE:** Most home water filters are meant for water that is already microbiologically safe. Using these filters during a "boil water notice" will not guarantee the safety of the water. Replace any filter cartridges after the boil water notice has been lifted to ensure your filter is not contaminated.

### Purification Tablets

The water can also be treated with water purification tablets which can be purchased at most outdoors or sporting goods stores. Follow the directions for use on the package.

**Treat only enough water to meet your needs for 48 hours at a time.**

There is an increased chance of recontamination if the treated water sits for more than 48 hours. Refrigeration will also help avoid recontamination.

### Treating Water with Bleach

If the emergency has left you with no way to boil water, or if you have limited fuel and do not want to use it for boiling water, you may treat the water with liquid household laundry bleach (see warning below) to kill microorganisms such as bacteria and viruses.

- 1 See warning below about the types of bleach NOT to use, which contain additional chemicals that are poisonous.
- 2 Add bleach in the amounts listed in the graphic below for a 1 gallon container or a 5 gallon container (measurements per <https://www.cdc.gov>).
- 3 If the water is cloudy, dirty, murky, colored or very cold, add double the amount of bleach listed in the graphic below. It is best to attempt to filter it first through coffee filters.
- 4 Thoroughly mix by stirring or shaking the container.
- 5 Let the water stand for 30 minutes before using. A slight chlorine odor should be noticeable in the water. If not, add another dosage of bleach and allow the water to stand another 15 minutes before using.

5 GALS. WATER		1 GAL. WATER	
ADD BLEACH		ADD BLEACH	
Using bleach with 8.25% sodium hypochlorite	Using bleach with 5 to 6% sodium hypochlorite	Using bleach with 8.25% sodium hypochlorite	Using bleach with 5 to 6% sodium hypochlorite
30 Drops	40 Drops	6 Drops	8 Drops
OR	OR	OR	OR
2 Milliliters	2-1/2 Milliliters	1/2 Milliliter	1/2 Milliliter
OR	OR	OR	OR
1/3 Teaspoon	1/2 Teaspoon	< 1/8 Teaspoon	< 1/8 Teaspoon

**WARNING:** Do not use scented laundry bleach, powdered bleach, swimming pool chlorine - these contain additional chemicals that are poisonous (this means do not use products such as High Efficiency Bleach, Splash-less Bleach, Clorox® Ultimate Care Bleach or Clorox® Bleach Pen Gel). If the label is unclear, contact the bleach manufacturer.

## SAFETY TIPS FROM SOUTHERN CALIFORNIA EDISON

- **CHECK EMERGENCY SUPPLIES** to be sure you have a battery-operated radio, a flashlight and fresh batteries. *Do not use candles for lighting as they pose a fire hazard.*
- **FALLEN POWER LINES** If you're in a vehicle with a fallen power line on it, stay in the vehicle and remain calm until help arrives. It is OK to use your cell phone to call 9-1-1. If you must leave the vehicle, remember to exit away from downed power lines and exit by jumping from the vehicle and landing with both feet together. You must not touch the vehicle and the ground at the same time. Then proceed away from the vehicle by shuffling and not picking up your feet until you are several yards away.
- **USE CAUTION ON THE STREET** Power outages in the area may impact traffic signals, and vehicles should treat all intersections as four-way-stops. Use extreme caution.
- **WATER & ELECTRICITY DON'T MIX.** Water is an excellent conductor of electricity. Do not step in or enter any water that a downed power line may be touching.
- **GENERATORS** If you use a generator, place it outdoors and plug individual appliances directly into it, using a heavy-duty extension cord. Connecting generators directly to household circuits creates "backfeed," which is dangerous to repair crews. Please consult the manufacturer's manual for operating the generator.
- **COOKING** Do not use any equipment inside that is designed for outdoor heating or cooking. Such equipment can emit carbon monoxide and other toxic gases.

### POWER OUTAGE?

Download the SCE app to  
monitor and report outages.  
Visit [www.sce.com/outages](http://www.sce.com/outages)  
or call 1-800-611-1911

## BEFORE AN EMERGENCY

### Know Your Natural Gas Meter

Know where your natural gas meter is located and keep a 12-inch or larger adjustable wrench with your emergency supplies, near your building exit or next to your natural gas meter shut-off valve. Don't store the wrench on the natural gas meter or other natural gas piping. In the event of an earthquake or other emergency, turn off your natural gas meter if you smell natural gas, hear natural gas leaking or see other signs of a leak - and ONLY if it is safe to do so.

### Secure Your Water Heater

To keep your water heater from moving or toppling in an earthquake, strap it firmly to the wall studs in two places - the upper and lower one-third of the tank - with heavy bolts and metal strapping. Be sure to place the lower strap at least four inches above the thermostat controls. Kits are usually available at your local hardware store and we recommend having a qualified professional install it for you.

### Use Approved Flexible Connectors

Call SoCalGas® or a licensed, qualified professional to replace any semi-rigid aluminum or copper natural gas tubing appliance connectors with an approved flexible connector. Make sure flexible connectors aren't subject to damage or passing through floors, walls or ceilings.

### Check Safety Devices

Check your safety devices, such as smoke and carbon monoxide detectors, to make sure they're functioning properly.

### Check Appliances

Call SoCalGas or a qualified professional to inspect your furnace and other natural gas appliances for safe operation.

## WHAT TO DO IF YOU SUSPECT A NATURAL GAS LEAK?

*If you smell a natural gas odor, hear the hissing sound of gas escaping or see other signs of a leak:*

**IMMEDIATELY EVACUATE THE AREA** and from a safe location either call 9-1-1 or SoCalGas at 1-800-427-2200

**DON'T SMOKE** or light a match, candle or other flame.

**DON'T TURN ELECTRICAL APPLIANCES OR LIGHTS ON OR OFF**, operate motorized equipment or vehicles, or use any device that could cause a spark.

### Look

## IDENTIFYING A POTENTIAL NATURAL GAS LEAK

### If you see...

- a damaged connection to a natural gas appliance
- dirt, water or debris being blown into the air
- a dry patch of grass in your yard (in an otherwise moist area)
- a fire or explosion near a pipeline
- exposed pipeline after an earthquake, fire, flood or other disaster

### If you hear...

- an unusual sound, such as a hissing, whistling or roaring, near a natural gas line or appliance

### If you smell...

- the distinctive odor of natural gas, often described as a sulfur-like odor. NOTE: some people may not be able to smell the odor for a number of reasons (see below)

### Don't Rely on Just Your Nose

Although a distinctive odor is added to make natural gas easy to recognize, you may not be able to smell leaking gas if:

- You have a diminished sense of smell
- You're experiencing odor fatigue (normal, temporary inability to distinguish an odor after prolonged exposure to it)
- You have a physical condition such as a common cold, sinus condition or allergies
- You use tobacco, alcohol, drugs and certain medications
- The odor is masked or hidden by other odors that are present
- Pipe and soil conditions have caused the odor to fade (odor fade)

### Listen

### Smell

### Call Before You Dig

Whether you are planning to build a major development or just landscaping your yard, protect your safety and the safety of those around you by calling Underground Service Alert at 8-1-1 at least two working days before excavating. Underground Service Alert will coordinate with SoCalGas® and other utility owners in the area to mark the locations of buried utility-owned lines - absolutely FREE. You can also request a ticket online through [call811.com](http://call811.com).

## Safety training prepares medical staff at Temecula Valley Hospital for emergency response.

When a disaster strikes, your community hospital is prepared. Whether it is a natural disaster such as an earthquake, or a mass casualty event, Temecula Valley Hospital is ready to answer the call in these circumstances. Hospital staff participates in public safety training exercises with the Riverside County Emergency Medical Department. These sessions provide vital training and coordination using different simulated events to learn the best ways to streamline care in the event of specific emergencies and help keep the community safe.

### Learn the many warning signs of a stroke. Call 9-1-1.

Someone suffers a stroke every 40 seconds, making stroke the leading cause of adult disability, as well as the third-leading cause of death nationwide. Chances of survival are better if the stroke is identified and treated immediately.

#### Act F.A.S.T - Every Second Counts

**F - FACE:** Ask the person to smile. Does one side of the face droop?

**A - ARMS:** Ask the person to hold up both arms. Does one drift downward?

**S - SPEECH:** Ask the person to repeat a simple sentence, like "Do you know what time it is?" Are the words slurred? Does the person repeat the phrase correctly?

**T - TIME:** If the person shows any of these symptoms, time is important. Call 9-1-1 immediately at any sign of a stroke.

Temecula Valley Hospital is designated as "Stroke Ready" by the Riverside County Emergency Medical Services Agency. A multidisciplinary team of healthcare professionals at Temecula Valley Hospital works to evaluate and treat all stroke emergencies.

### Care for sudden, non-serious illness with ER Reserve.

When you need care for less serious and non-life-threatening injuries or illnesses such as sore throat, earache, cough or cold, or muscle strains and sprains, you can request time in the Emergency Department at Temecula Valley Hospital.

Visit [www.erjustgoteasierhere.com](http://www.erjustgoteasierhere.com) and select a time up to 12 hours in advance that is convenient for you. If you are unsure of your condition or if it worsens, or if you decide your care cannot wait until the time you selected, go to the nearest emergency room or dial 9-1-1.

Temecula Valley Hospital (TVH) is dedicated to keeping patients safe as demonstrated by its Top Hospital and "A" Rating designations. These prestigious designations mean that according to hospital patient safety records, TVH is among the safest hospitals in the nation for: **Surgery • Practices used to prevent infections • Safety measures followed by doctors, nurses and hospital staff to prevent errors.**

The Top Hospital designation is the gold standard for safety, quality, and efficiency.

# 2018 Youth Emergency Preparedness Program

(GRADES 9-12)

## The City of Temecula, in collaboration with FEMA, is excited to present the City's inaugural Youth Emergency Preparedness Program (YEPP) for youth grades 9-12!

In addition to educating youth about emergency preparedness and all-hazards events that affect our region (i.e. earthquakes, floods, droughts, fires, terrorism, etc.), participants of the program will receive hands-on experience managing the City's Emergency Operations Center (EOC) via a simulated tabletop exercise. Not only will youth learn about regional hazards, they will also understand the decision making that takes place to ensure the continuity of essential City services in the event of a catastrophic emergency.

For more info, please contact: [emergency.management@temeculaca.gov](mailto:emergency.management@temeculaca.gov)

**4-DAY COURSE**  
**9am to 1pm Daily**  
• Tuesday, July 17, 2018  
• Thursday, July 19, 2018  
• Tuesday, July 24, 2018  
• Thursday, July 26, 2018  
\$24/student via Eventbrite:  
[www.eventbrite.com](http://www.eventbrite.com), keyword: YEPP

**WHERE**  
• City of Temecula  
• Emergency Operations Center (EOC)  
• 41000 Main St. Temecula, CA 92590

**YOUTH WILL RECEIVE:**  
• T-Shirt  
• Breakfast, Snacks and Lunch  
• Bag, Notebook, Pen  
• Community Service Hours  
• EOC Incident Simulation Training  
• Tour of Police Station and Fire Station  
• FEMA Training  
• Active Shooter Preparedness Training

## Creating a Safe Environment for Temecula

1 (800) 755-8112 <http://crrwasteservices.com/cities/california/county-of-riverside/city-of-temecula>

Temecula residents: please place your food scraps, along with your landscape clippings, into the organics cart (green trash can):

**FOOD WASTE** Fruits, vegetables, dairy, breads, grains, plants, meat, seafood, fish and coffee grounds.

**GREEN WASTE** Weeds, garden trimmings, wood scraps/chips, stable bedding, grass clippings, green plants, dry leaves, horse manure.

**DID YOU KNOW?** CR&R's new Anaerobic Digester Facility converts food scraps and yard waste into a renewable natural gas, which fuels the CR&R fleet. CR&R is also able to produce a high grade organic fertilizer for wholesale and retail markets. This technology makes it possible to permanently divert this material from the landfill. By keeping the material out of the landfill, CR&R is helping to improve air quality for generations to come and reduce harmful methane emissions.

## Your TemeculaSAFE 3-Minute Emergency Bag

is a collaboration between the City of Temecula and Helping Hands to ensure that all Temecula households receive one as part of the City's 2018 **TemeculaSAFE** emergency preparedness theme. Special thanks to the many citizen volunteers of Helping Hands whose priority is community service and disaster relief. Also, thank you to our local utility companies and community hospital for their participation.

951-694-6444
